ULTRA CUP ENGINEERING & MATERIALS

ULTRA CUP | AGGRESSIVE GRINDING FOR HARD CONCRETE

The ULTRA grinding disc is an aggressive style grinding cup with a unique circular segment designed to keep heat down while maximizing grinding efficiency resulting in faster speeds and longer life expectancy.

ULTRA CUT MATERIALS

ULTRA Cup Grinding disc is designed specifically for hard re-enforced concrete.

ULTRA CUP KEY FEATURES

- SK5 rated highest quality carbon steel core.
- ISD1750 highest quality grade diamond.
- Laser welded segments and core
- High visibility design and colour
- 10mm Circular segment design
- Air cooling holes in segments allow faster cooling
- Diameters available 5" Upwards Other sizes can be manufactured if requested.

ITEM NO.	DIAMETER	ARBOR	SEGMENT SIZE	SEGMENT NO.
KUC5	125 MM	22.23MM / 20MM	10MM W 10MM H	18

EN13236 Compliant, ISO9001 Manufacturer, MPA Approved, ANSI Compliant.
